Abstracts

Other plant-based milk, the only product area with visible sales in plant-based dairy in Argentina, continued to record strong growth in its packaging unit volumes in 2022, albeit slightly slower than the two previous years. While growth continued to be skewed by the emergence of sales from a low base, the category has benefited as the well-established trend towards rising health-consciousness among Argentinians was reinforced by the COVID-19 pandemic. Improvements in distribution have also rece...

Euromonitor International's Plant-based Dairy Packaging in Argentina report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
