Abstracts

Plant-based milk packaging, which dominates overall demand for packaging within plant-based dairy in the Netherlands, experienced further growth in retail unit volumes in 2022, due to a growing trend towards alternative diets and lifestyles driven by health and sustainability concerns. As local consumers increasingly opt for dairy alternatives such as almond, soy, oat, and coconut milk, there has been a surge in demand for packaging specifically designed to accommodate these products. Plant-base...

Euromonitor International's Plant-based Dairy Packaging in Netherlands report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Plant-based Cheese, Plant-based Milk, Plant-based Yoghurt.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
