## Abstracts

Plant-based dairy packaging volumes continued to rise in 2022, as a wider range of these products became available, and more consumers were open to trying these products. The growth of plant-based yoghurt, for instance, was attributed to changing consumer preferences and dietary choices. Swiss consumers are increasingly seeking dairy alternatives for health, environmental, and ethical reasons. Plant-based yoghurt offers a suitable replacement for traditional dairy yoghurt, catering to lactose-in...

Euromonitor International's Plant-based Dairy Packaging in Switzerland report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
