## Abstracts

Plant-based dairy packaging continued to see robust unit volume sales growth in 2022 due to strengthening health and environmental consciousness among UK consumers. Globally, there is increasing awareness of the environmental impact of animal agriculture and dairy production, which is thought to be accelerating climate change through greenhouse gas emissions.

Euromonitor International's Plant-based Dairy Packaging in United Kingdom report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Plant-based Cheese, Plant-based Milk, Plant-based Yoghurt.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
