Abstracts

Plant-based eating and alternative proteins are on the rise. More consumers are limiting consumption of animal agriculture-derived products, and this dynamic segment of food and nutrition is home to continuing innovation. Health, sustainability and animal welfare are key motivators, and consumer demographics indicate a healthy future. This report explores the market, providing guidance for future strategies, detailing the important segments, and showcasing key innovations.

Euromonitor International's Plant-based Eating and Alternative Proteins global briefing offers an insight into to the size and shape of the Fresh Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving fresh food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like packaging innovations, retail distribution and retail pricing both historically and into the future.

Product coverage: Eggs, Fish and Seafood, Fruits, Meat, Nuts, Pulses, Starchy Roots, Sugar and Sweeteners, Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
