Abstracts

Overall demand for portable players is expected to increase in 2023, but most categories are set to maintain retail volume declines, and growth will be driven solely by the dominant wireless speakers category. In addition to use within the home, in line with the lifting of pandemic restrictions in the country, there is an increasing trend to listen to music outside the home, especially amongst younger consumers, and many of these devices are lightweight, and easily portable, offering convenience...

Euromonitor International's Portable Players in South Korea report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
