Abstracts

Portable media player volume sales increased by 2% in 2010. Sales grew very strongly over the review period with a CAGR of 12%, largely driven by the craze for Apple's iPod and its many imitators. During 2010 the mobile phone category began to take its toll on portable media players as the strong penetration of smartphones began to eat away at certain portable media players, especially MP3 players. However, thanks to new technologies such as e-readers and portable multimedia players the entire...
