Abstracts

Processed fruit and vegetables is set to see dynamic retail volume and current value growth in China in 2023, with shelf stable fruit remaining the dominant category and driving growth. At the beginning of 2023, with COVID-19 lockdown restrictions lifted and the resultant spread of infections across the country, OTC medicines to treat colds and fevers were in short supply. Suddenly, canned yellow peaches became very popular amongst Chinese consumers, thus driving the retail volume and current va...
