Abstracts

Consumer demand for processed fruit and vegetables remains stable in North Macedonia in 2023 due to the influence of the burgeoning health and wellness trend in the country. Younger consumers, in particular, are increasingly opting for processed fruit and vegetables products for the preparation of salads and smoothies. Due to significant unit price increases and inflationary pressure, the category is registering double-digit value growth in 2023.

Euromonitor International's Processed Fruit and Vegetables in North Macedonia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
