Abstracts

Continuing soaring inflation is expected to see current value sales rise significantly, though constant value and volume growth are expected to be much more muted. Continuing population growth supports volume growth, though with inflation still rising at pace, value for money is the key driver of value sales.

Euromonitor International's Processed Fruit and Vegetables in Pakistan report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
