Abstracts

Processed fruit and vegetables benefits from the convenience of having a long shelf life, with the perception of freezing as a healthy way to process fruits and vegetables remaining the main driver of the category in 2020. Additionally, the COVID-19 lockdowns and foodservice closures have seen consumers in Russia stockpile processed (and especially frozen) fruit and vegetables, further boosting the category. Such products lend themselves well to home-cooking, which has been on the rise in 2020 d...
