Abstracts

Processed fruit and vegetables packaging, after its major unit volume spike in 2020, having recorded modest growth or even stagnating sales in the previous years of the review period, recorded a decline in 2021, as COVID-19 restrictions were eased, meaning less stockpiling and home-cooking as well as more visits to both retail and foodservice outlets.

Euromonitor International's Processed Fruit and Vegetables Packaging in Canada report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
