## Abstracts

Shelf stable fruit and vegetables dominates sales of process fruit and vegetables in Indonesia, with metal food cans the main pack type in shelf stable fruit and vegetables as well as therefore also processed fruit and vegetables as a whole. The use of easy-open cans ends as closures continued to grow in 2021, supported by an increasing demand for convenience among local consumers. Due to increasingly busy lifestyles, consumers are always on the lookout for products that can make their lives eas...

Euromonitor International's Processed Fruit and Vegetables Packaging in Indonesia report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
