Abstracts

Metal food cans have long been the dominant pack type in shelf stable fruit and vegetables in South Africa. The overwhelming preference for metal food cans is partly explained by their relatively low cost and unmatched durability, but also attributable to the fact that this pack type offers longer product shelf lives than other formats. These factors should ensure that metal food cans volume sales continue to increase steadily in this category over the forecast period. However, volume growth is...

Euromonitor International's Processed Fruit and Vegetables Packaging in South Africa report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
