Abstracts

Due to the greater amount of time Germans spent at home as well as foodservice closures, 2020 saw consumers cooking and eating more meals at home in this year, providing a boost to the various products on offer in the processed fruit and vegetables category. This spike in demand also provided a boost to all pack types used in processed fruit and vegetables. However, packaging unit volumes slipped into decline in 2021, with another, and stronger, fall in sales seen in 2022. Nevertheless, unit vol...

Euromonitor International's Processed Fruit and Vegetables Packaging in Germany report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
