Abstracts

Processed fruit and vegetables registered declining volume sales in Thailand over the course of 2019-2020 and 2020-2021 due to the impact of the COVID-19 pandemic. Although many consumers stockpiled essential goods during the early stages of the pandemic, in Thailand, processed fruit and vegetables are regarded mostly as products to be used in the preparation of celebration dishes to be consumed during social occasions, rather than as staple non-perishable foodstuffs that should be stockpiled in...

Euromonitor International's Processed Fruit and Vegetables Packaging in Thailand report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
