Abstracts

Consumption of processed meat and seafood had declined marginally over the review period, partly due to quite high average unit price increases in 2016/2017 and also as some consumers began to cut back on their consumption of these products due to their often highly processed nature and high salt content. However, these products offer convenience and relatively long shelf lives, particularly in their frozen formats. Many consumers therefore stocked up on frozen processed meat given the uncertain...

Euromonitor International's Processed Meat and Seafood in Brazil report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2016-2020, allowing you to identify the sectors driving growth.
