Abstracts

Consumption of processed meat and seafood has been in steady decline since 2016 in France. Although these products remain extremely popular, more shoppers have been cutting back on consumption due to concerns about their highly processed nature and in some instances relatively high salt content. Greater awareness of the link between red meat consumption and cancer prevalence and the numerous scandals regarding French slaughterhouses have also made some consumers more wary around these products.

Euromonitor International's Processed Meat and Seafood in France report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2015-2019, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2024 illustrate how the market is set to change.

Product coverage: Meat Substitutes, Processed Meat, Processed Seafood.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
