ID: PBF8B335CE4EN

Abstracts

Although the outbreak of COVID-19 in 2020 boosted demand for processed meat and seafood products as useful ingredients for home cooking and snacking, especially frozen and shelf stable products, which offered good storage and stockpiling capabilities, it also accelerated an already strong healthy eating trend in the Netherlands. With consumers increasingly looking to better their health as a means of prevention, including offering indirect resistance to the COVID-19 virus, this has driven consum...
