Abstracts

With Singapore on the frontline of the global COVID-19 pandemic at an early stage, the official response to the unfolding situation was robust and swift. A key plank of government efforts to curb community transmission of the COVID-19 virus during the first half of the year involved requiring residents to stay at home for most of the time and avoid unnecessary contact with others. This led many consumers to stockpile essential products, and this included notably frozen processed meat and frozen...

Euromonitor International's Processed Meat and Seafood Packaging in Singapore report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: Meat Substitutes, Processed Meat, Processed Seafood.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
