Abstracts

Premium pet food is on the precipice of a transformational shift. As pet owners turn to more fresh and less processed food in their own diets, they are increasingly looking beyond ingredient lists in pet food. Physical format has become a key differentiator in pet food as the level of processing becomes nearly as important as the ingredient list itself. This report explores the drivers behind this shift and the new formats that are benefiting, including raw and fresh pet food.

...

Euromonitor International's Processing: The Next Frontier for Premium Pet Food global briefing offers an insight into the development of the market, highlights buzz topics, emerging geographies, categories and trends as well as pressing industry issues and white spaces.
