Abstracts

As Indonesians returned to the office and classroom as well as resumed their social and leisure activities, there was growing demand for processed food to cope with the resumption of hectic, on-the-go lifestyles. During 2022, with many consumers busier than ever, this increased the demand for processed meat and seafood.

Euromonitor International's Processed Meat and Seafood Packaging in Indonesia report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Meat and seafood substitutes inc Tofu, Processed Meat, Processed Seafood.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
