Abstracts

Packaging unit volume sales in processed meat and seafood in Mexico only witnessed marginal growth in 2022, considering that the category was reaching more normal levels of demand following the pandemic-induced boost. During the pandemic, local consumers were forced to shift from traditional fresh meat and seafood offerings to their processed counterparts due to the disruption caused by COVID-19 to supply chains and accessibility as well as the demand for products perceived as safer and more hyg...

Euromonitor International's Processed Meat and Seafood Packaging in Mexico report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Meat and seafood substitutes inc Tofu, Processed Meat, Processed Seafood.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
