Abstracts

The ongoing dynamic retail unit volume growth recorded by packaging for meat and seafood substitutes including tofu within processed meat and seafood packaging at the end of the review was due to the rising popularity of plant-based and vegetarian diets in the Netherlands. As local consumers become more health-conscious and environmentally-aware, they are increasingly turning to meat and seafood substitutes as a sustainable and nutritious alternative.

Euromonitor International's Processed Meat and Seafood Packaging in Netherlands report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Meat and seafood substitutes inc Tofu, Processed Meat, Processed Seafood.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
