Abstracts

With the COVID-19 pandemic seeing consumers spending a lot more time at home, and with consumer foodservice outlets closed for extended periods, this boosted demand for some products in ready meals. For example, with consumers preparing and eating more meals at home than usual, this helped drive sales of dinner mixes, boosting the packaging unit volumes of folding cartons and flexible plastic in 2020 and 2021, although this remains a very small category in overall ready meals.

Euromonitor International's Ready Meals Packaging in Italy report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Chilled Lunch Kits, Chilled Pizza, Chilled Ready Meals, Dinner Mixes, Dried Ready Meals, Frozen Pizza, Frozen Ready Meals, Prepared Salads, Shelf Stable Ready Meals.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
