Abstracts

Refrigeration appliances underwent a significant transition in Germany in 2023. Historically, German consumers, renowned for their prudence and judicious spending habits, had been favouring longevity over frequent replacements. This trend became even more pronounced in 2023. The economic conditions, including strong inflationary pressure, saw households re-evaluate their spending patterns, opting to either extend the life of their existing appliances or invest in refurbishments. Concurrently, de...

Euromonitor International's Refrigeration Appliances in Germany report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, format trends or distribution issues. Forecasts to 2027 illustrate how the market is set to change.
