## Abstracts

In 2023, retail adult incontinence in Ecuador recorded a retail value rise, while volume sales remained positive. A key factor driving substantial retail sales is the prevalence of goods in homes and older care facilities, with administrators frequently advising family members to buy these products for their older relatives. This approach enables each family to select the most appropriate products based on individual requirements and financial constraints. However, institutional sales, primarily...

Euromonitor International's Retail Adult Incontinence in Ecuador report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
