Abstracts

Retail value sale of retail adult incontinence products recorded moderate growth in 2023. Rather than buy retail adult incontinence, many consumers often revert to pantyliners or menstrual care products in order to save money. As menstrual care products are more common, it is likely that women who need to deal with incontinence issues seek out products aimed at menstrual care. Menstrual care products are more easily available, more accessible and do not have the stigma of incontinence attached.

Euromonitor International's Retail Adult Incontinence in Netherlands report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Light Adult Incontinence, Moderate/Heavy Adult Incontinence.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
