Abstracts

In 2023, the ageing population in Poland drove sales in adult retail incontinence goods, which saw positive, double-digit retail volume and value growth. As the number of older adults in need of special health assistance rose, this was accompanied by a growing awareness among consumers about the availability of absorbent products in pharmacies and drugstores. This positive growth in sales can also be attributed to social campaigns, which have increased product awareness and made it easier for in...

Euromonitor International's Retail Adult Incontinence in Poland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
