Abstracts

Retail adult incontinence continues to lead category growth across the tissue and hygiene categories, with low double-digit growth in current retail value and close to double-digit growth in retail volume in 2023. This is a reflection of the burgeoning issue of an increasingly ageing population with a declining fertility rate, which is common among developed nations such as Singapore. According to Euromonitor International Economies and Consumers, the population aged 65 and above will account fo...

Euromonitor International's Retail Adult Incontinence in Singapore report offers a comprehensive guide to the size and shape of the market at a national level.
