Abstracts

Vietnam saw rapid ageing of its population over the review period with the number of people aged 65+ increasing from 7.4 million in 2018 to 9.4 million in 2023. This demographic shift had strong bearing on the performance of retail adult incontinence, with elderly consumers being the main users of these products. As the population aged the demand for retail adult incontinence inevitably grew, with the category continuing to report strong growth in retail volume terms in 2023.

Euromonitor International's Retail Adult Incontinence in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
