Abstracts

Before the outbreak of the Coronavirus (COVID-19) pandemic, e-commerce purchases of goods were largely made via foreign websites, such as Amazon or other similar sites. However, with the development and strong promotion of domestic e-commerce platforms, Bolivian users began to see advantages in purchasing goods via e-commerce from local retailers. These consumers were attracted by localised price promotions and marketing and faster delivery times. This last aspect was widely valued during the pa

Euromonitor International's Retail E-Commerce in Bolivia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Retail E-Commerce by Product, Retail E-Commerce by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
