Abstracts

Growth in total e-commerce current value sales in 2022 was down markedly on 2021, and also much lower than the CAGR for the entire review period. This was partly explained by the normalisation of trade, in that after having received a significant boost from lockdown measures and consumer concerns about potential exposure to COVID-19 over 2020-2021, online purchases inevitably dipped as the easing of the pandemic and the ending of associated restrictions saw people return to brick-and-mortar stor
