## **Abstracts**

Consumers are increasingly shopping online for their groceries with the return to busy lives away from the home leaving less time for grocery shopping. Growth was seen from both pure players and traditional store-based grocery retailers which have started ecommerce operations (eg Albert Heijn, Jumbo) in 2023. However, players were also facing high costs and low margins, so maintaining profitability remained an ongoing challenge in 2023.

Euromonitor International's Retail E-Commerce in Netherlands report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Retail E-Commerce by Product, Retail E-Commerce by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retail E-Commerce market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;
