## Abstracts

E-commerce registered double-digit current value growth in 2022, as well as healthy constant value growth, in spite of high inflation. The high inflation was due to the war in Ukraine, which led to soaring energy prices, which in turn led to higher retail prices in general. In spite of economic uncertainty, e-commerce was the best performing retail channel. Consumers are increasingly perusing online and shop windows have been replaced by digital screens such as tablets and mobile phones. The dig...

Euromonitor International's Retail E-Commerce in North Macedonia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight.
