## Abstracts

Consumer shopping habits still favour traditional and informal retail in Angola. Retail was hit hard by the COVID-19 pandemic, with the economy suffering. However, with a recovering economy expected in the forecast period and the government focus on structural reforms, the outlook for modern retail is positive. Moreover, young adults are becoming increasingly influential in shaping sales, with many preferring modern retailers. Euromonitor International's Retail in Angola report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Product coverage:** Retail E-Commerce, Retail Offline.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
