Abstracts

The retail industry showed dynamic current value growth in India in 2023, driven by conducive macroeconomic factors, as well as the full return of mobility and travel after the end of the pandemic. The strong performance in 2023 can be attributed to positive consumer sentiment in terms of both discretionary and non-discretionary spending. Retail e-commerce remained a fast-growing channel, due to the focus on convenience, discounts, and wide product range available across categories. Modern chann...

Euromonitor International's Retail in India report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Retail E-Commerce, Retail Offline.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retail market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and

leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
