Abstracts

Retail in Saudi Arabia continued to experience positive growth in current value terms in 2023 with the end of the pandemic and improved consumer confidence helping to encourage spending. Although the Saudi economy actually contracted in 2023 due to a drop in oil revenue when it came to the Kingdom's non-oil economy there continued to be growth, with retail playing an important role in this. Retail is undergoing major changes which are being driven by shifting consumer behaviours and new governme...

Euromonitor International's Retail in Saudi Arabia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Retail E-Commerce, Retail Offline.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retail market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;
