## **Abstracts**

Sri Lanka experienced an economic crisis in 2022 with hyperinflation and severe import restrictions due to a lack of dollars. Many retailers struggled to meet demand with the country experiencing severe shortages, including for key products such as food and medicines. These supply challenges coupled with economic pressures forced consumers to focus more on price and accessibility. Nonetheless, the lifting of COVID-19 restrictions boosted tourism and helped bring some positivity to the market.

Euromonitor International's Retail in Sri Lanka report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Retail E-Commerce, Retail Offline.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
