## Abstracts

Retail sales in Switzerland in 2023 saw minimal current value growth, which was solely driven by price increases. Paradoxically, this was also one of the main limiting factors on demand. Substantial increases in the cost of living made local consumers more price-sensitive and conservative in their spending. A shift towards essentials and discounted products was notable, including sales through discounters and in favour of private label. Grocery retailers performed slightly better in current valu...

Euromonitor International's Retail in Switzerland report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Retail E-Commerce, Retail Offline.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retail market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and

leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
