Abstracts

In 2023, retail sales in the United Arab Emirates continued to grow at a reasonably positive level, although growth rates were marginally slower compared to the previous year. This slowdown was indicative of stability in retail's performance after a dynamic 2022, but it also reflected signs of cautious consumer spending amid increasing living costs in the United Arab Emirates. Outlet openings also slowed as retailers prioritised profitability and an omnichannel presence. Instead, investment was...
