## Abstracts

Despite the deleterious impact of the COVID-19 pandemic, Uzbekistan recorded positive annual real GDP growth of 1.9% in 2020. With the reopening of the economy, as well as higher state investment and a recovery in remittance inflows that bolstered domestic demand, this resulted in annual real GDP growth posting a strong performance of 7% in 2021, although gold exports were disappointing leading to a widening of the current account deficit. Given strong trade links with Russia, the war in Ukraine

Euromonitor International's Retail in Uzbekistan report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Product coverage:** Retail E-Commerce, Retail Offline.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
