## Abstracts

The retail and wholesale industry in South Korea recorded moderate growth in 2017. Despite relatively low inflation and unemployment rates, the sluggish economic situation, and political uncertainties negatively affecting the industry's performance. However, despite fears arising from the country's neighbour to the north, and other geopolitical tensions, South Korea remains a key market for Europe, while exports grew to their highest level yet at USD574 billion, contributing to the retail and wh...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Retail and Wholesale market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
