Abstracts

Retail tissue continued to see healthy growth in current value and retail volume terms in 2019. There was a slump in sales earlier in the review period due to the economic downturn seen in the country, but after 2015 sales followed an upward trajectory. With incomes recovering consumers increased their spending on and usage of products such as toilet paper and paper towels in 2019.

Euromonitor International's Retail Tissue in Croatia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2015-2019, allowing you to identify the sectors driving growth.
