Abstracts

The global retailing industry is undergoing a transformation, as e-commerce continues to grow, both as a channel and as a means of interacting with shoppers. This briefing serves as a guide to the current state of play, surveying key regional and channel trends, as well as the five most important global trends for the next five years.

Euromonitor International's Retailing Global Industry Overview global briefing offers an insight into the size and shape of the retailing industry, highlights emerging trends, their effects on retailing in markets around the world, on the development of channels and consumers' shopping patterns. It identifies the leading companies and brands, offers strategic analysis of key factors influencing the market – be they the developments of new store types, the importance of non-store retailing, economic/lifestyle influences, private label or pricing issues. Forecasts illustrate how the market is set to change and criteria for success.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
