Abstracts

Amid the COVID-19 pandemic, health protocols had to be implemented altering the shopping experience of Ethiopians. The use of masks and social distancing among consumers and staff were strictly enforced in stores. The pandemic and the war in Tigray exacerbated both the foreign currency crunch and constrained the import of goods, adversely affecting non-grocery specialists. In contrast, modern grocery retailers and e-commerce thrived in 2021.

Euromonitor International's Retailing in Ethiopia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Non-Store Retailing, Store-Based Retailing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retailing market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and

leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
