Abstracts

In 2021, as society opened, and COVID-19 infections fell, consumers began spending again and updating their wardrobes, as they socialised again. As a result, current value sales in retailing grew after a decline in the previous year. The Georgian economy is quite dependent on the money spent by foreign visitors, which had been absent during the previous year. Visitors from the North Caucasian republics, Iran and Armenia appreciate the wide product range and more affordable prices in Georgia. The...

Euromonitor International's Retailing in Georgia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Non-Store Retailing, Store-Based Retailing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retailing market;

Pinpoint growth sectors and identify factors driving change;
