Abstracts

Retailing grew steadily in 2021 as the pandemic receded in the second half of the year and lifestyles slowly normalised. However, Laos' retailing industry remains underdeveloped, with informal retailing dominant especially given the recent drop in disposable incomes, which also stimulated cross-border shopping. Traditional retailers dominate formal retailing, with modern retailing underdeveloped and catering exclusively to affluent urban dwellers interested in shopping as a leisure pursuit.

Euromonitor International's Retailing in Laos report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing; vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Non-Store Retailing, Store-Based Retailing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
