Abstracts

Lockdown as a result of the pandemic negatively affected most areas of retailing at the end of the review period. Mandated to close during the national lockdown retailers were hard hit. Furthermore, economic uncertainty and declining consumer disposable incomes led consumers to become more budget conscious, limiting their spending to essential necessities. Retailers with an omnichannel presence weathered the storm better than retailers who relied on store-based retailing alone. In February 2021,...

Euromonitor International's Retailing in Lithuania report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Non-Store Retailing, Store-Based Retailing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retailing market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
