Abstracts

In May 2021, there was a surge in the number of COVID-19 cases in Vietnam, which led the government to impose another lockdown in Ho Chi Minh and in most southern provinces, obliging people to stay at home and only go out for basic necessities such as purchasing groceries or medicine, or to work at factories or businesses permitted to operate. In addition, the majority of traditional grocery retailers was also required to close due to the rise in the number of COVID-19 cases in the sales channel...

Euromonitor International's Retailing in Vietnam report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Non-Store Retailing, Store-Based Retailing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
